GIFTING WITH GIVEBACK

We know how challenging it can be to find the “right” gift for your high-touch events. The wet paint group was created out of necessity by a team of meeting/incentive industry veterans to provide fresh amenity ideas to our peers.

In addition to offering unique brands that punctuate your event with “Wow!” moments, we are passionate about giving back to the community through various CSR initiatives. We call it “Gifting with Giveback!” By connecting the right gift with a greater purpose, your guests will not only appreciate the thought behind the experience, but more importantly will have an emotional connection to the entire event messaging. The gift becomes a vehicle to share the story and inspire attendees to make significant contributions to both the host organization and the world around them.

CSR | CORPORATE SOCIAL RESPONSIBILITY

Our Gifting with Giveback philosophy enhances the meaning behind your gift experience by combining unique amenity selections with a greater purpose and social responsibility. By partnering with wet paint group, you not only offer your guests a remarkable experience, you also contribute to a variety of global charitable initiatives. We intentionally align with brands that value community service and support-worthy causes. With wet paint, you are not buying a product, or even a gift, but instead an experience. Through

intentional messaging, we strive to connect on a deeper level and help inspire attendees to take action. Your gift will remind attendees of your thoughtfulness, your message, and the overall trip experience. Our professional staff work with you to align your amenity and event objectives with the appropriate CSR initiative creating a memorable experience.

A portion of the proceeds from each gift experience will be contributed to Project Helping or the brand's respective philanthropic partner.

PROVEN PROCESS

Our process is based on a simple formula that maximizes the overall impact of each experience – **INTRIGUE. IMMERSE. INSPIRE.**

INTRIGUE: Our amenity brands are carefully curated by our leadership team. We only offer products found in small boutiques or with limited distribution. Our brands will not be commonly found at everyday retailers or big box stores. Your executive level guests have the buying power to purchase whatever they desire, so we offer brands that evoke intrigue. Brands with cache and exclusivity. This sets the stage for what we like to call “Now, that’s cool!” moments.

IMMERSE: While each of our gifts are unique and intriguing, we lean into the production of our gift experiences in ways that touch all of the senses and tug at emotions. Whether a boutique style marketplace or a beach party scene, the experience atmosphere immerses your guests in the story behind the brand and give-back initiative. Our on-site brand ambassadors effortlessly engage with each guest and share the narrative of the event, each gift, and why it is special. When attendees understand the “why”, they are more likely to recognize they are part of something truly remarkable.

INSPIRE: Through a deep emotional experience, we are able to activate the event message and inspire each guest. The gift or amenity serves as the conduit to transport your attendees back to the experience, reminding them of the event, message and location long after the event’s conclusion. It serves as recognition of the past and fuel for the future. This is the true value of the gift, inspiring your guests to invest and contribute to both the company and social agenda in a meaningful way, a **GIFT WITH A GREATER PURPOSE.**

THE EXPERIENCE

TAILORED APPROACH TO BUILDING EXPERIENCES

wet paint first listens to its clientele, and only then applies its vast experience and creativity to collaboratively design a program. Being able to provide products and themes in a range of prices suited to fit diverse locations around the world allows wet paint to integrate its experiences into the overall event theme and message.

MULTIPLE PRODUCT TIERS & PRICING

Recognizing that all budgets or occasions are not created equally, wet paint is able to offer multiple amenity levels to fit your event objectives.

PACKAGES

When the event requires a unique approach, or where just one gift does not meet the bill, wet paint can create packages where your attendees may select product combinations either in categories, or using a points system, to enhance the shopping experience.

THEMED

wet paint also offers themed experiences such as our Surf Shak, Sound Experience, Bag Bar, and Taj Market where all of the senses are activated.

TURNKEY FULFILLMENT

At wet paint, we take our charge seriously aiming to lift the event burden from your shoulders. Our pricing is inclusive, meaning in most cases a single price per person covers it all!
